JOSEPH KINERMAN
PHOTOGRAPHY

Your journey starts here.

Hello, I'm Joe

Ever since I can remember, photography has been a significant part of my life. There's something so magical about capturing a fleeting moment in time and preserving it for eternity.

I feel incredibly lucky to call this my job and share all these incredible weddings with the people I get to work with.

My aim is to have an editorial and documentary approach to photographing weddings so you feel like you have a friend behind the camera.

Weddings

what to *expect*

As your wedding photographer, I'm committed to providing exceptional service from the moment you book. You can rely on me to answer any questions you may have and be a reliable source of support throughout your wedding planning journey. Let's connect on Instagram and start building a personal connection that will help us create stunning images that truly reflect your who you are. I love the feeling of arriving on the wedding day and already having a bond with my clients. With my camera in hand, I'll be there to capture all the candid and heartfelt moments of your special day.

how booking *works*

To secure your booking, I ask for a 20% deposit, which confirms your date in my calendar and enables me to prepare for your wedding day. Additionally, I'll send over a contract. I'll also ask you to complete a short questionnaire about your day. This will help me understand your vision for your wedding and plan accordingly, ensuring that I capture all the moments that are most important to you. Overall, these steps are essential to help us create a seamless and stress-free photography experience for your special day.

here to capture *who you are.*

My photography style is rooted in a documentary approach with a strong fashion edge, that seeks to capture the true essence of the couple and their wedding day. I believe that the best photographs come from natural, unposed moments that capture the genuine emotions of the day.

I focus on observing and capturing the authentic moments that unfold throughout the wedding day but will always be there to guide you when needed. My aim is to tell the story of your wedding day in a way that feels honest and genuine.

I pay close attention to the small details and the unique moments that make each wedding day special. By doing so, I'm able to create a visual narrative that showcases the couple's unique personalities and the love that they share.

At the heart of my approach is a deep commitment to capturing your true selves. I strive to create images that are timeless and authentic, and that truly capture who you are as individuals and as a couple. For me, there's nothing more rewarding than delivering photographs that transport you back to your special day and evoke the same emotions you felt when you was there.

Hybrid Photography/ Videography

£4000

Including all of the above photography plus a highlights video

Let's add a beautiful 5-6 minute highlights video set to beautiful music to compliment your photography package!

This highlight film is all about capturing your day's fun and relaxed vibe – in the same way, I approach your wedding photography. It's relaxed, unposed and mostly documentary. Photography will still be the main focus but I'll capture those little moments in between on video, too.

I shoot it handheld, so it has a candid shot-from-the-hip feel. It's the perfect balance between photography and videography without the feeling you're being chased around with multiple cameras all day.

frequently asked *questions*

HOW LONG DOES IT TAKE TO RECEIVE OUR PHOTOS?

Your full gallery will be ready within 4 weeks. You will also receive some preview images 48 hours after your wedding.

How many photos will we get?

Around 500-600 but this varies on each wedding. You'll also get a copy of every photo in black and white.

How far in advanced do we need to book?

I only take 30 weddings per year. Most couples book at least 12/18 months in advance.

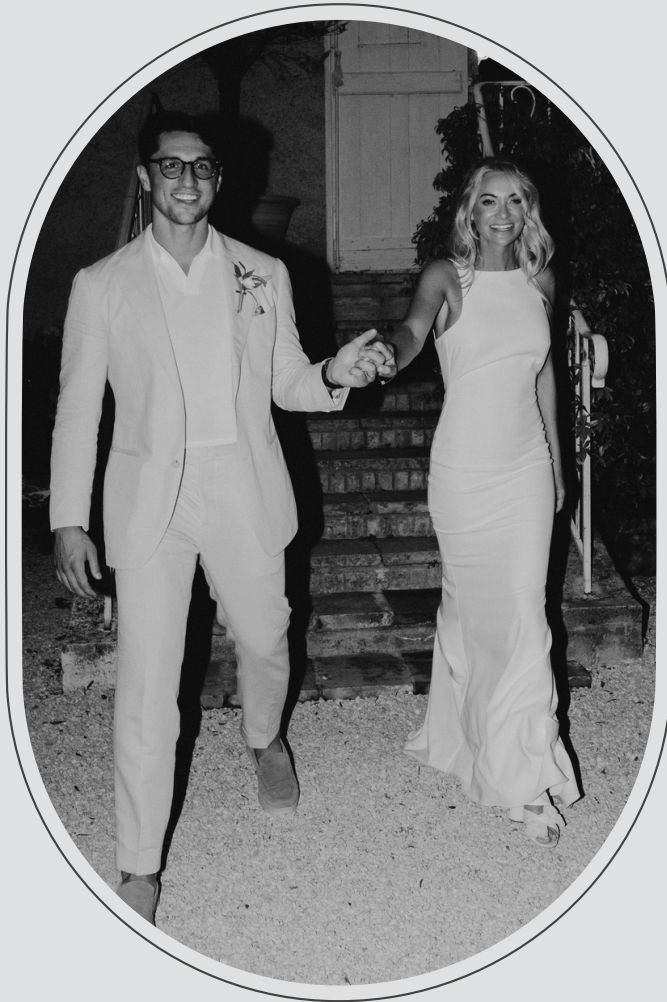

Does your price include travel?

My price includes all costs so there isn't any hidden charges.
